(54) Title: A CUTTING HEAD FOR A BRUSH CUTTER, EDGE TRIMMER OR SIMILAR

(57) **Abstract:** A cutting head for a brush cutter, edge trimmer or similar comprises a passageway (112) for a cutting string (300) and a mobile string locking element (400) suitable for locking the string (300) in its passageway. According to the invention, the passageway is generally offset from a central axis of the head and opens at both ends at the periphery of the head, and the locking mobile element is a one way-locking element, whereby a strand of string can be readily inserted into the passageway from a first end opening thereof and extracted from the passageway from the second end opening thereof.
